**QUEEN'S
UNIVERSITY
BELFAST**

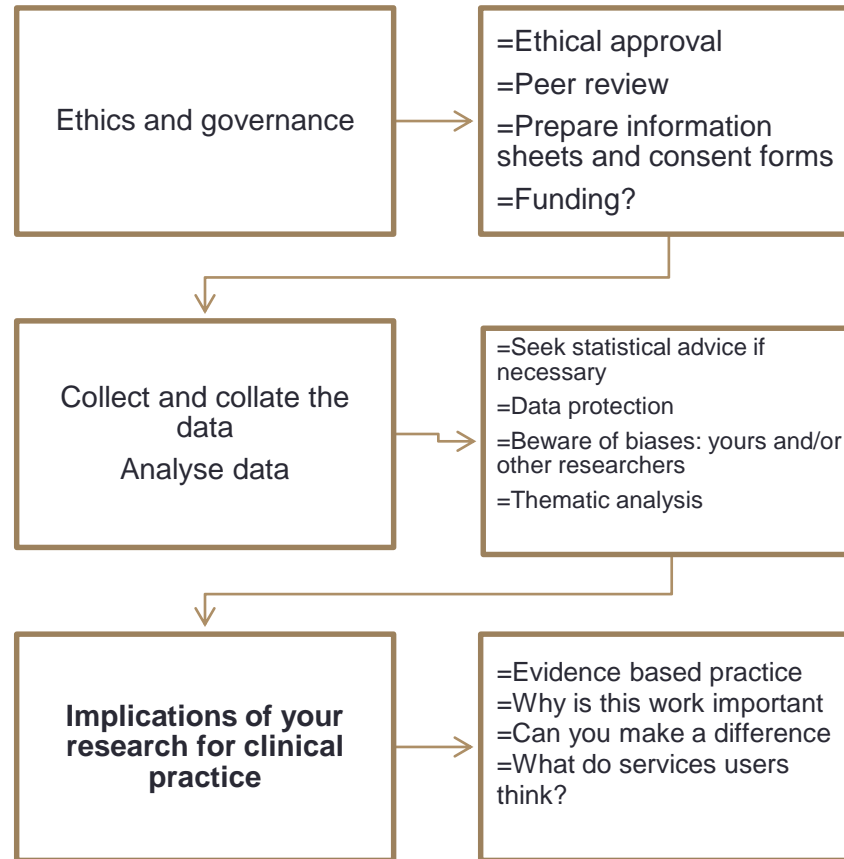

**Claire Carswell - PhD student at Queen's University Belfast
Developing an arts-based intervention for patients with end-
stage kidney disease whilst receiving haemodialysis**

Your Research Project. How and Where to Start

Your Research Project. How and Where to Start

Your Task

- **Title of project:**

- Population
- Intervention / experience
- Type of study
 - Survey
 - Audit
 - Qualitative/quantitative

‘How is fatigue managed by patients receiving unit haemodialysis: a qualitative study’

‘The experience of dying renal patients: a retrospective review’

‘Challenges and barriers to palliative care: a Delphi study of renal nurses’

‘Developing an Arts-based Intervention for patients with end-stage kidney disease receiving haemodialysis’

- **Aim of project**

- Explore/Measure/test effectiveness/compare

- **Methods**

- Interviews
- Scales – outcome measures
- Number of participants – who are they?
- How will you recruit?
- How long will the work take?
