

51st EDTNA/ERCA International Conference

Kidney Care in a challenging world –
economic & sustainable implications

Vilnius, Lithuania
October 14–17, 2023

1st Announcement

Welcome Message from the President

Dear Colleagues & Friends

It is with great pleasure and pride that we invite you to join us in Vilnius, Lithuania next year where the 51st EDTNA/ERCA International Conference will take place. The theme of our Conference is **“Kidney Care in a challenging world – economic & sustainable implications”**.

The theme highlights two main topics: economy and sustainability, which are related, sometimes in conflict. But as healthcare professionals we need to consider them as pivotal.

Our Conference will take place at the Radisson Blue Hotel Lietuva, which is a newly built conference centre located right by the city centre. Thanks to its unique and varied interior it is the ideal venue for organising conferences.

The UNESCO-listed medieval old town of Vilnius is one of Eastern Europe’s biggest and best preserved. Vilnius is a compact and walkable city, filled with urban green spaces and a healthy dose of impressive architecture, tasty eats and all kinds of exciting leisure activities. 46 % of Vilnius is made up of green spaces, so you can definitely expect a breath of fresh air.

Please join us at the 51st EDTNA/ERCA International Conference and experience our Scientific Programme, including Educational Sessions and Workshops. Meet our Industry Partners at the Exhibition, share experiences among each other, and meet old and new friends! We are very much looking forward to welcoming you to Vilnius.

Ilaria de Barbieri
EDTNA/ERCA President

About us

EDTNA/ERCA is a multi-disciplinary organization for those working in kidney care. The mission of the Association is about “achieving the best level of education, standards and research for all kidney care professionals caring and supporting their patients and families around the world”. To live up to this Mission, we are an Association with many colleagues involved. Tasks and work are split and shared amongst us, enabling us to grow, to become stronger and to achieve our goals. We have the opportunity

to share knowledge and experience not only at Conferences and seminars but also through our education programme and publications. The continued collaboration with our partners in projects offers a mutually rewarding outcome. Great opportunities are offered to all involved. Our strength is built by the competence and experience of our volunteers, members, delegates and partners; together we work for a caring culture supporting our professionals and our patients.
